Principal Coaching	In addition, TEP provides two to four days of principal coaching around your goal. Our administrative coaches will work with your district and/or building administrators to help them envision what a successful implementation process should look like at both the district and/or building levels and help your administrative team to put the systems in place to make successful implementation a reality.
Extended Offerings	Research shows that it takes at least five years for a system to become institutionalized. Therefore, TEP offers multi-year professional development packages. We feel this is the best possible approach for both of us. Therefore, we provide additional services at no additional cost if you select this option.
