Workshop Overview:	This is an introductory, interactive workshop that uses your school's data to introduce the inquiry-based data-driven decision making process.
Workshop Outcomes:	<ul style="list-style-type: none"> ➤ Participants will be able to explain the inquiry-based data-driven decision making process to others. ➤ Using their school's data in the inquiry-based data-driven decision making process, participants will: <ul style="list-style-type: none"> ● Explore different ways to display data. ● Write SMART Student Achievement GOALS. ● Formulate Essential Questions Around the Goals. ● Create a Plan to Collect Data to Answer the Essential Questions.
Onsite Coaching	Given the fact that research “emphasizes that coaching is a prerequisite for the implementation of new skills or strategies” (Showers, Joyce, & Bennett, 1987 in DuFour & Berkey 1995) and “providing teachers with ongoing support after the initial training is critical to the success of any innovation” (DuFour & Berkey 1995), the TEP team offers on site coaching to help your team implement your plan. Contact us for more information.
Principal Coaching	In addition, TEP recommends administrative or principal coaching and/or consulting around this goal. Our administrative coaches will work with your district and building administrators to help them envision what a successful implementation process should look like at both the district and building levels and help your administrative team to put the systems in place to make successful implementation a reality.
Extended Offerings	Research shows that it takes at least five years for a system to become institutionalized. Therefore, TEP offers multi-year professional development packages. We feel this is the best possible approach for both of us. Therefore, we provide additional services at no additional cost if you select this option.
