

Just When You Need It—A Data-Driven Decision Making Workshop

Conducting Effective Walkthroughs	
Intended Audiences:	<p>Leadership Teams, School Improvement Teams, PLCs, and Full Staffs</p> <p>This workshop is perfect for any school that is implementing a school-wide or content-area student achievement goal.</p>
Time:	One Day or Two Half Day Options Available
Workshop Overview:	<p>This interactive workshop is designed to be delivered in multiple sessions during the day while active instruction is in progress. Rotating teams of teachers will go through the training and walkthrough process, so that the whole staff participates in it. Then after school, the whole staff will reflect the process.</p> <p><i>Note:</i> This workshop is designed as a self-reflection tool for individual teachers and for PLC teams. It is meant to be used to inform instruction and not as an administrative tool in the teacher evaluation process. If we want true improvement to happen, we have to provide teachers with the tools and the opportunity to reflect upon the instructional implications of their actions without having to fear that their honest reflections will result in a negative evaluation.</p>
Workshop Outcomes:	<ul style="list-style-type: none"> ➤ Using classroom observation rubrics and videos clips, participants will develop an understanding of what sound instruction should look like around their student achievement goal ➤ Then participants participate in classroom walkthroughs and reflect on the process with their peers.
Onsite Coaching	<p>Given the fact that research “emphasizes that coaching is a prerequisite for the implementation of new skills or strategies” (Showers, Joyce, & Bennett, 1987 in DuFour & Berkey 1995) and “providing teachers with ongoing support after the initial training is critical to the success of any innovation” (DuFour & Berkey 1995), the TEP team offers on site coaching to help your team successfully implement your school improvement strategies. Contact us for more information.</p>

Just When You Need It—A Data-Driven Decision Making Workshop

Principal Coaching	In addition, TEP recommends administrative or principal coaching and/or consulting around this goal. Our administrative coaches will work with your district and building administrators to help them envision what a successful implementation process should look like at both the district and building levels and help your administrative team to put the systems in place to make successful implementation a reality.
Extended Offerings	Research shows that it takes at least five years for a system to become institutionalized. Therefore, TEP offers multi-year professional development packages. We feel this is the best possible approach for both of us. Therefore, we provide additional services at no additional cost if you select this option. To learn more about this and other offerings please Contact Us.
