

Just When You Need It—A Data-Driven Decision Making Workshop

Engaging Students in Data-Driven Dialogues	
Intended Audiences:	Grade Level or Content Area Teams, and PLCs
Time:	One Day or Two Half Day Options Available
Workshop Overview:	In this interactive workshop participants will be introduced to the inquiry-based data-driven dialogue process and then be guided through the process of designing a project-based instructional unit for their grade level or content area that introduces their students to the inquiry-based data-driven dialogue process.
Workshop Outcomes:	<ul style="list-style-type: none"> ➤ Participants will be able to explain the inquiry-based data-driven dialogue process to others. ➤ Participants design an instructional unit to introduce the process to their students.
Onsite Coaching	Given the fact that research “emphasizes that coaching is a prerequisite for the implementation of new skills or strategies” (Showers, Joyce, & Bennett, 1987 in DuFour & Berkey 1995) and “providing teachers with ongoing support after the initial training is critical to the success of any innovation” (DuFour & Berkey 1995), the TEP team offers on site coaching to help your team successfully implement your school improvement strategies. Contact us for more information.
Principal Coaching	In addition, TEP recommends administrative or principal coaching and/or consulting around this goal. Our administrative coaches will work with your district and building administrators to help them envision what a successful implementation process should look like at both the district and building levels and help your administrative team to put the systems in place to make successful implementation a reality.
Extended Offerings	Research shows that it takes at least five years for a system to become institutionalized. Therefore, TEP offers multi-year professional development packages. We feel this is the best possible approach for both of us. Therefore, we provide additional services at no additional cost if you select this option.
